AMENDMENT/ALLOWANCE

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 24, 2010 has been entered.

Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Pedro A. Rojas (registration number 63,008) on May 12, 2010.

The application has been amended as follows:

In claims:

A) For the amended claim 7, line 10: replace “a pseudo-coded reference image data” with – **a central processing unit including** a pseudo-coded reference image data –

B) For amended claim 19: replace line 5 “a first coding step of encoding the input image” with “a first coding step of encoding, **in an intracoding mode**, the input image”.

Replace line 7 “components in an intracoding mode;” with “components;”.

Replace line 8 “a second coding step of encoding the input image” with “a second coding step of encoding, **in an intercoding mode**, the input image”.

Replace line 10 “coding step in an intercoding mode;” with “coding step;”.

C) For amended claim 22: line 1 replace “A computer-readable recording” with – **A non-transitory** computer-readable recording –

D) Change the status of following claims from “withdrawn” to “cancelled”:
1-6, 13-18, 20, 21, and 23.

Allowable Subject Matter

3. Claims 7-9, 12, 19, and 22 are allowed.

4. The following is a statement of reason for the indication of allowable subject matter:

The present application comprises some of the elements of the claims, such as the following features, in combination with other recited limitations, which the closest prior art of record and the references cited in form PTO-1449 taken either singly or in combination does not teach or suggest:

- a) a first coding unit configured to encode, in an intracoding mode, the input image data by transforming the input image data into frequency components in units of blocks and coding said frequency components; a second coding unit configured to encode, in an intercoding mode, the input image data using reference image data which is obtained by performing local decoding on the image data encoded by said first coding unit; a central processing unit including a pseudo-coded reference image data generating unit configured to generate pseudo-coded reference image data by limiting the frequency components obtained by the transforming of the input image data in the first coding unit, wherein said pseudo-coded reference image data is used to correct a frame of image data encoded by the second coding unit in a case where the frame of image data encoded by the second coding unit cannot be decoded in a decoding process (independent claim 7).
- b) first coding step of encoding, in an intracoding mode, the input image data by transforming the input image data into frequency components in units of blocks and coding said frequency components; second coding step of encoding, in an

intercoding mode, the input image data using reference image data which is obtained by performing local decoding on the image data encoded by said first coding step; pseudo-coded reference data generating step of generating pseudo-coded image reference data by limiting frequency components obtained by the transforming of the input image data in the first coding step, wherein said pseudo-coded reference image data is used to correct a frame of image data encoded by the second coding step in a case where the frame of image data encoded by the second coding step cannot be decoded in a decoding process (independent claims 19 and 22).

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
